Bells, Keys and Skates.

Friends, to JOHN G. WEAVER, Jr's go,
And there you'll find if you do not know,
Pumps, both Copper, Iron, Lift and Force,
And all for a very little cost,
We also have a Pump that will not freeze,
You raise the handle—water comes with ease,
Bells, have we, and ones that'll ring,
And to your door your servant bring;
Keys, we have too, without number—
We'll fit them too without a blunder;
Skates we sharpen as you need not fall,
This pleases the children both great and small,
And now kind friends don't forget the place
For the BIG KEY is looking you in the face.

PROVIDENCE.

THE GREATEST INVENTION OF THE AGE

IS THE

COLD WATER

SELF-WASHING SOAP.

No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no binding required to make your clothes look nice and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that ever had been used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Prints, and any fabric where other soaps fade the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.— Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy Street, Providence, R. I., whose name will be on every bar and wrapper.

Horn Ail.

Frequently cows are sick, having cold horns and ears, and eat very sparingly of food. The disease producing this effect are mostly called hollow horn, and with many farmers the remedy is boring holes in the horns, which is of doubtful utility.— Warm applications bound round the horns and head will be much better than boring the horns, or sawing them off, as has been done by many farmers in such cases.

With cows thus affected, gentle treatment is decidedly the best, and the painful process of boring the cow's horns does more harm than good. Take strong vinegar and turpentine, each one gill; heat them together, add a half gill of salt and black pepper, and rub the cow's head well around the roots of the horns, as hot as it can be borne with the hand. Then bind the horns round with strips of woolen cloth. For sick cows, give a bran mash, in which put a table-spoonful of powder, night and morning. The ingredient of the powder is two parts gun-powder, one ditto sulphur, one ditto alum.—*Journal of the Farm.*

Keeping to One Thing.

We earnestly entreat every man, after he has chosen his vocation, to stick to it. Don't leave it because hard blows are to be struck, or disagreeable work performed. Those who have worked their way up to wealth and usefulness, do not belong to the shiftless and unstable class, but may be reckoned among such as took off their coats, rolled up their sleeves, conquered their prejudices against labor, and manfully bore the heat and burden of the day. Whether upon the old farm, where our fathers toiled diligently, striving to bring the soil to productiveness; in the machine shop or factory, or the thousand other business places that invite honest toil and skill, let the motto ever be: Perseverance and industry. Stick to one thing, boys, and you will have success.

Carriage & House Painting!

THE UNDERSIGNED would respectfully inform his friends and the public in general, that he has leased the Ocean House Carriage Shop, and has engaged one of the best Carriage Painters in the country to conduct the same; he therefore solicits the patronage of all parties having carriages which they wish to have put up in the best manner, not to forget the Ocean House Carriage Shop, as he guarantees to do nothing but the best of stock and warrants satisfaction in work and terms, or no pay.

Persons wishing their carriages stored and insured, (or stored alone,) until they are wanted in the Spring, can be accommodated, as I have large storage room for that purpose.

Thankful to my numerous kind friends who have so liberally patronized me during the last five years, I would say that I still continue to carry on the House Painting and Glazing Business in all its branches at the Old Stand, 155 Spring street, where I am ready to do work by the day or contract, as well and as low as can be done in this or any other city. NEWPORT DAILY NEWS.

TUESDAY, January 10, 1871.

The Germans have taken advantage of the position which they have been allowed to occupy, so promptly and effectually as to silence the forts Rosny and Nogent. Both of these forts can be taken by the Germans whenever it suits their convenience. There is nothing to prevent the Germans from advancing to Montreuil, thus getting in the rear of Forts Toisy and Romainville, and opening up to them the undisputed possession of the suburbs of Belleville and La Ville which are completely at the mercy of the besiegers. The German heavy guns at Meudon, southeast of Paris, as well as other batteries in that direction, are now in position and ready for use. The casements of Forts d'Issy and Vanvres were battered down after a fire of forty eight hours' duration. Private advices from Versailles to the 6th state that the general bombardment of the forts on the southeast and north was furious, and notwithstanding the slaughter caused by the French fire they will all be silenced before Sunday.

The New York *Post* says that private despatches received Saturday afternoon from the Schuylkill and Lackawana mining regions, give information that the grand council of the "Workingmen's Benevolent Association" (the miners' trades union) has decided to order a general strike. All the miners are therefore to suspend work on Tuesday the 10th, to limit the supply of coal, and produce such a scarcity as to advance prices. The Delaware & Hudson and the Delaware & Lackawana companies have offered to their miners $2 45 per day, and to their common laborers $2 per day; but these rates have been refused. The men prefer to remain idle for the time, in the hope of extorting high wages hereafter. The effect of a general strike will naturally be to send up the price of coal everywhere, and of course the hardship of it will come upon poor people who are unable to lay in their whole winter's supply of fuel when coal is low.

There is a movement among the colored people of Alabama in favor of migration thence to Kansas. A Labor Convention, just held at Montgomery, adopted a report favorable to the movement,—assigning as reasons the high prices at which good cultivable lands in Alabama are held, the unfitness for cultivation of a large portion of the Government lands, and the hostility to colored settlers which exists in the neighborhoods where these lands are to be obtained. By removing to the West, it is urged, more fertile lands may be had without cost, and a degree of security which is represented as unattainable among a population unfriendly to the present status of the freedman. The grounds upon which the Convention sanctioned the movement are creditable to the self-reliance and industrial aspirations of the colored people. The Southern land owners overlook their true interest when they drive away the best labor which is likely to be available.

From the outbreak of the Russian difficulty, we have expressed the opinion that no "conference" could do any good, Russia having clearly made up her mind to have her own way in the matter. The news this morning again confirms this opinion. It only remains to be seen whether England will go to war in what appears to be a very bad cause. There may be motives for war on her part which are not clearly visible—as, for instance, the discovery that Prussia and Russia are acting in concert, and have now only made the first move in the game. In that case England might do worse, as a matter of policy, than lend a helping hand to France—a course which men like Mr. Frederic Harrison think she ought to have adopted after the overthrow of Napoleon. With Mr. Gladstone at the head of the Government, any very decisive or plucky policy can hardly be looked for.

As every one supposed would be the case, the postal-cards have been employed in England to vent a great deal of small annoyances and to wreak innumerable petty vengeances. It is so safe a way of hurting a supposed enemy by writing to him a message which many can read that it is freely adopted. There was a case of libel recently brought up at the Hammersmith Police Court, in which a magnanimous photographer was promptly compelled to make an ample apology to the niece of his wife, whom he had grossly insulted by means of one of these cards, and there have been instances reported in which nasty obscenities have been sent to young girls by the same means.

The summer and fall were unusually dry, and now winter has brought little snow; the result is that from all sides come complaints of a scarcity of water. The Springfield Republican regretfully asserts that there is but three week's supply in the reservoir of that city. "One calamitous fire, such as is daily reported by telegraph," would render the city helpless, exhausting its supply of water; and a second such fire would be destruction. The Republican sees little chance of succor, believing that a thaw would do little good, and a rain storm of sufficient value is not likely to bless us in the winter season.

A Washington dispatch says much interest is felt in Congressional circles as to the result of the court-martial at West Point engaged in trying the colored cadet Smith. The opinion seems to be general that he is the object of a regular conspiracy, intended to work him out of the Academy; and some favor the adoption of stringent measures towards certain white cadets who are supposed to be the prime movers in the alleged conspiracy. It is very probable that some action will be taken to cover Smith's case, and that of other colored youths who may be appointed to the Military Academy.

Sorrows are like tempest clouds; when afar off they look black, but when above us scarcely gray.

General Edward Harland, of Norwich, Conn., has invented and published a most ingenious calendar, good for 300 years, and printed on paper the size of a visiting card. If any man, after using it 300 years, isn't satisfied with it, the General will give him another free.

The statue of Lincoln modelled by Vinnie Ream and cut in Italy has arrived safe in Washington, and was unveiled in the Rotunda of the Capitol, in the presence of a few invited to view it by the artist. The martyr President is represented in ordinary citizen's dress, with a cloak hanging loosely from his shoulders, the right hand holding what may be supposed to be folded sheets of manuscript. The emancipation proclamation is extended as if offering it to be taken. The left hand grasps the folds of the cloak at the side. He stands firmly poised on the left leg, which supports the body, the right foot being slightly advanced and at ease. The head is inclined forward, and indeed so much bowed as to appear unnatural when looked at from in front; it is only when standing so as to get a three fourths view of the left side that the expression of the face can be fully and satisfactorily seen.

The cattle disease is spreading rapidly in Essex county Mass. it having been imported from Brighton a few weeks since. There are 40 cases in Boxford, seventy-five in Rowley, and a large number in Georgetown and Newbury. Mr. Dodge of Georgetown has sixteen cows on the sick list. The other day he gave some milk from one of them to a dog, which died in a few hours after eating it.

The question between the operators and the workingmen as to the price of coal for December has been established at $2.17 per ton, which reduced the wages from the price paid on three dollars basis 24 3 4 cents per ton. The difficulty of the November wages involving a difference of 8 1-4 per cent. reduction was also settled. The stock of coal at Port Richmond is reduced to some 40,000 tons, and the price of coal has advanced from 50 cents to $1 per ton.

In the Prussia-Austrian war and in this present war King William has played the part of the man at the fair carrying a chip upon his shoulder. He has been a quarrel seeker. In order to get somebody to knock off the chip, he has done provoking things that neither Joseph of Austria, nor Napoleon of France, would stand, in order that he might turn to and have a fight. The Luxembourg appropriation was the chip for Holland to knock off. Bismarck's warning to Switzerland was the chip for that little republic to knock off. The sinking of the six English ships now in the Seine was one chip for England; and when England would not knock off that chip another was put on the shoulder in the shape of a refusal to apologize or to make full restitution.

The charges of bribery at the late Congressional election in Rhode Island, it appears, are not to be immediately inquired into, as the present Congress has nothing to do with the construction of the next one, which will have to take up the matter of inquiry, if it is ever taken up. Meantime we suppose that votes in our sister state are ready for the market at all prices from one to twenty dollars—as they have been.—*Norwich Bulletin.*

The following hints are given in a fashionable boarding house in New York;

"Notice to boarders—The gentlemen must not put their feet on the mantle in the winter, nor out of the window in summer, and the lady must not write her name on the glass with the quartz pin. The single gentleman must not play on the trombone, nor make love to the servants, nor comb his whiskers at the table. If he does he won't answer. The lady must not turn up her nose at everything on the table, unless she is a natural pug, and none of the party must drink or talk with a mouthful of victuals, nor must they fight for the top buckwheat cake. Terms liberal; board to be paid weekly in advance.

Austria has congratulated Prussia upon the establishment of the German Empire, as tending to the advancement of the idea of German unity. This is rather significant, as showing that Prussia and Austria are agreed upon one of the main, if not the principal, feature of the policy of Prussia. Henceforth, therefore, Austria and Prussia are to be good friends, and will probably seek to control the whole of Central Europe, while Russia will aim at the subjugation of Western Europe not exempting Turkey.

The effect of long drought has begun to be seriously felt in Jersey City, where the supply of water for the upper portion of the city has entirely failed, and that for the entire city was not expected to last through the day. We shudder for Jersey City if things come to such a pass that they have to take their whisky clear.

A loom, with power of knitting and weaving, has been invented by a Vermonter which it is said, will produce three hundred yards of cloth a day, and that of any given weight and texture. The swiftness with which this work is done can be better appreciated by remembering that the best one now in common use turns off but twenty yards in the same time.

There was a rumor in London on the 22d of last month, that Dr. Livingston had reached Mozambique, on the southeast coast of Africa, and was waiting for conveyance to England. How the report originated we do not learn.

About Home.

REVELLING.—A boy was arrested yesterday for revelling and taken to the station house.

COURT OF JUSTICES.—William Wood who had a ride to the station house Sunday, on a hand cart, was fined for drunkenness, this morning, $5,00 and costs.

ICE.—The present weather is so tempting to the ice dealers that some of them are not only filling their houses, but piling it up also on the outside. The prospects for ice cream next summer are good.

DELIRIUM TREMENS.—A poor unfortunate who was frightened by the "blue devils" fled to the station last night for protection. He concluded this morning to sign the pledge and was allowed to go at large.

LECTURE.—The lecture of Rev. B. A. Chase is to be given at the Thames St. Church this evening. Let there be a full house. The subject, "Three years of Army Life," will interest many of our citizens.

RELIGIOUS.—Rev. J. P. Lane is to be installed as pastor of the Congregational Church in Bristol to day. Rev. J. M. Manning of Boston preached the sermon and other distinguished divines participate in the exercises.

REWARD.—A year ago, Messrs. Bent and Bush of Boston, offered four prizes for the largest orders of army caps received within the year. They have just awarded the highest prize—$100 in gold, to D. A. Moore at Fort Adams.

MASONIC.—The 123d installation of the St. John's Lodge took place at Masonic Hall last evening. We have already given the names of the officers elect who were installed by R. W. D. Grand Master William Gilpin assisted by R. W. James G. Topham and R. W. D. G.M. Henry J. Hudson. The hall was filled with ladies and gentlemen who had responded to the invitation of the brethren, many of whom witnessed the ceremonies for the first time. This over, an address was delivered by Mr. Gilpin which was listened to with interest, when brief speeches were made by Hon. Francis Brinley, J. B. Brayton esq., and Hon. Thomas Coggeshall. These exercises over, a portion of the members and their friends spent a few hours in the lower hall in dancing, when the party broke up well pleased with the exercises and festivities of the occasion.—St. John's lodge was never in a more prosperous condition than at present, and under the administration of the new Master, Ray B. Tayer esq., it will be likely to maintain its position as one of the best in New England.

Literary Notices.

THE N. Y. OBSERVER YEAR BOOK AND ALMANAC.—We have received this work for 1871. The first Directory of New York published in 1786, is reprinted in it, a single copy of which sold for $100.00 at public auction, four years ago. It is a very fine book and well worth its price, which is $1,00.

TRANSATLANTIC MAGAZINE.—We have received the latest number of this magazine. It contains some very handsome illustrations, splendid stories, and a variety of other reading matter. It equals any publication ever offered to the American public. L. R. Hamersly & Co., Publishers, Philadelphia, Pa.

BEECHER'S MAGAZINE.—This is one of the best dollar monthlies in the country. The January number has some very instructive pieces, besides some very beautiful engravings. The February number will contain a steel plate engraving for framing, which alone is worth much more than the price of the work. J. A. Beecher publisher, Trenton, N. J.

OUR SCHOOLDAY VISITOR.—This steerling little work has made its appearance once more on our table. It is now in its fifteenth year. It was among the first juvinile periodicals published and its success was so great that its rivals sprang up by scores, but it yet stands at the head of them all. T. S. Daughaday & Becker, publishers, Philadelphia, Pa.

MCDONALD'S ILLUSTRATED ANNUAL for 1871, has been received. It is of a large quarto size, each page illustrated with elegant engravings, and contains original and selected articles of great merit. Among the contributors are Grace Greenwood, Harriet Beecher Stowe, Joseph P. Thompson, D. D., Frederick W. Cozzens, Henry Wardsworth, John B. Gough, etc. New York, R. H. McDonald, 32 and 34 Commerce Street. For sale by all News Agents. Price, Ten Cents.

MERRY'S MUSEUM FOR BOYS AND GIRLS contains an assortment of splendid stories poetry, engravings and a quantity of other things that make it interesting to all. Horace B. Fuller, Boston.

BALLOU'S MAGAZINE FOR FEBRUARY.—The February number of Ballou's Magazine is issued, and has a most timely and instructive illustrated article on Russia, treating that great nation in a most comprehensive manner, showing its manners and customs, strength and weakness, all of which is very important just at this time, when Russia is showing its teeth and uttering ominous growls. The number for February is the best one that has yet appeared. It is just the thing for families, and the publishers club "Ballou's Magazine" and "The Monthly Novelette" for the low price of $3.00 per year. Thomes & Talbot, 63 Congress Street Boston.

A True Lady.

I was once walking a short distance behind a very handsomely dressed young girl, and thinking as I looked at her beautiful clothes, "I wonder if she takes half as much pains with her heart as she does with her body." A poor old man was coming up the walk, with loaded wheelbarrow; and just before he reached us, he made two attempts to go into the yard of a small house; but the gate was heavy and swung back before he could get in. "Wait," said the young girl, springing lightly forward, "I'll hold the gate open." And she held the gate as he passed in, and received his thanks with a pleasant smile as she went on. "She deserves to have beautiful clothes," I thought, "for a beautiful spirit dwells in her breast."

The closest walk with God is the sweetest heaven that can be enjoyed on earth.

The Wretch Surratt.

The confessed abduction conspirator—if not a party to the plot to assassinate President Lincoln—John H. Surratt, appears to be one of the most unblushing scoundrels that ever went unwhipt of justice. His confession of being engaged in the plot to abduct the President of the United States and deliver him into the hands of his enemies, ought to send him to State prison for the term of his natural life. Instead of being where he might do the State some useful service, he is at large, roaming over the country and publishing his own shame to the world wherever he can get an audience. In Baltimore, we see he has just been arrested for not paying his license in that city, two years ago, as a tobacco dealer; but he was allowed to continue on in his disgraceful career on giving bail to the amount of fifteen hundred dollars. Of course, such a model democrat would not be without friends in Baltimore to give any amount of bail for him. The story of Surratt, that he was assured by his friends that his mother was not in danger, is contradicted by the statement that the proposition was made to release his mother if he would present himself for trial. But he preferred to let her be hung rather than run any risk to his own neck. This does not show much filial love or consciousness of innocence. He is evidently as cowardly as he is impudent and unblushing—one of those wretches, like Cain, unfit to live or die, only he lacks the conscience and self respect which led Cain to exclaim; "My punishment is greater than I can bear." But Cain did not have the democracy to sympathize with and sustain him, or he might have gone on a lecturing tour.—*Utica Herald.*

The United States steamer *Saginaw* went ashore on the morning of Saturday, October 29th on Pelan Island, French Frigate Shoals, near Midway Island. From the time the vessel went on until she finally went to pieces on the 14th of November following, a heavy surf prevailed, and in consequence very little could be saved from the wreck. Especially was it difficult to obtain provisions on board, and because of the small quantity saved the officers and crew, ninety in number, were placed on quarter rations, as the island on which they were wrecked furnished no food. On the 18th of November the executive officer of the *Saginaw*, Lieutenant Talbot, with some sub-officers, started in a gig for the Sandwich Islands, and on the 18th of December, one month afterwards, came in sight of the Kauai, one of the Sandwich Island group, but all were so exhausted, because of continued privations and suffering, that while attempting to make a landing Lieutenant Talbot, executive officer, Peter Francis quartermaster, and James Mure and John Andrew, sailors were drowned in the surf. Their bodies were subsequently found on the beach and interred. The survivors immediately took measures to forward to Honolulu the news of their arrival at Kauai and the loss of the *Saginaw*, and upon receipt of the information the United States minister chartered a Kauai packet, placed a supply of provisions and water on board and dispatched her to the relief of the shipwrecked seamen. Two days later the Sandwich Island government placed the steamer *Kilauea* at the service of the United States minister, and he immediately dispatched her to the scene of the disaster, where it is hoped she would arrive in season to rescue the officers and crew from death.

Draining Orchards.

A correspondent in the *Country Gentleman* gives his views on orchard draining as follows:

My experience with two inch sole tile, in the orchard, has been that the fibrous roots of the trees, within three years would enter the joints and fill and clog the bore so completely as to defeat the whole object contemplated. In examining tile that were three feet below the surface, I pulled out sections of matter composed mainly of fibrous roots, which perfectly barred the water, and which so startled "Pat" as to cause him to drop his spade and exclaim, "By my sowl! What kind of a snake is that, and how came his hide off?" On the whole I have come to the conclusion that the least objectionable kind of drain for an orchard of bearing trees, which fill the entire ground with roots, is the old fashioned blind drain, well secured at the top by small stones and such other material as will prevent the earth over the drain from breaking through. This precaution is usually not half attended to, and as a consequence, the drain in a few years—wherever located—becomes no drain, and its cost a useless expenditure of money.

On the 31st of March last there were in the cities and towns of England 3,217 pawnbrokers, paying a government duty of $137,925. Here, each State has its own laws, in many cases differing widely, as to pawnbroking. In very few instances is the pawnbroker in the States compelled to keep the article pledged for a year and a day, as in England, nor is he, we believe, restricted to a rate of interest as there. The pawnbroking business is under revision in that country, and we suspect greatly needs attention from Legislatures in this. It is a great boon to the poor if rightly conducted, and a shameful injury when it is not.

THE RAPID AND UNIVERSAL POPULARITY of Colgate & Co's Toilet Soaps, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

NEW INVENTIONS.—The fertility of the American mind in its conception of labor-saving machines is unequalled. Acknowledged to be the most ingenious inventive nation upon the globe, the United States has swelled its Patent Office to a size commensurate to the requirements of the age, but in every large city numerous burglars await an opportunity to bury their talons in the flesh of the originator of new inventions, drawing largely upon his purse, or sapping the benefits of his brain. To avoid such a misfortune, it will be well for those desiring patents to employ only those solicitors who are known to be reliable.

In our paper to-day will be found the annual announcement of R. H. Eddy, Esq., No. 16 State street, Boston, long and favorably known as a most successful solicitor of American and Foreign Patents.—Aside from his experience and thorough knowledge of every detail of the business, Mr. Eddy brings a courtesy and straightforwardness of dealing that renders business with him a pleasure.

The Reign of High Prices.

The reign of high prices we have abundant reason to hope is rapidly becoming an epoch of the past.—In nothing have we greater evidence of this fact than in the tendency which prevails and which grows stronger and stronger with every year to reduce the price of pianos. A musical instrument of such general use as the piano, is undoubtedly one of the forces of civilization, and he who invents or puts in use machinery by which the parts of these instruments are prepared for final instruction at a nominal figure, is as much a benefactor to his race as Stephen Girard, or George Peabody. Messrs. Vose & Son, of Boston, are benefactors of this character. Through them as fine a piano as man may wish has been presented to the public at the astonishing low figure of $216. These instruments are sold by Messrs. HIBBARD & HAWKINS, dealers in Pianos, Organs and Melodeons, at No. 122 Westminster Street, Providence, to whom we cheerfully recommend such of our readers as meditate the purchase of anything in the line of these gentlemen. Messrs. Hibbard & Hawkins are gentlemen of irreproachable honesty and integrity, of whom the Providence papers are continually speaking in terms of unstinted praise, and those who give them their patronage, will most surely never have reason to regret it.

Defensive Meditation.

Investigation is as necessary for the protection of the human body against disease when unhealthy influences are abroad, as iron armor and granite casements are for the protection of ships and fortresses when assailed by shot and shell. Hence, it is desirable when those potent enemies of vitality, damp and cold, pervade the air we breathe, to put the system in the best possible condition to encounter them. The stomach is the organ by which every other organ is nourished and sustained, and therefore upon its vigorous and regular action depends, in a great measure, the capacity of the system to resist the assaults of the invisible enemies of health and life, by which, at this inclement season, it is surrounded. Hostetter's Stomach Bitters, an admirable tonic and regulating medicine for all seasons is never more needed than in winter, when the corrupting influence of a chilly atmosphere effects all the vital functions, and renders the body extremely susceptible. By toning the digestive organs, and the liver, and the bowels with this unequalled vegetable specific, a physical condition is attained which seems to be proof against all varieties of temperature, and that is tolerable in the air of winter. Defensive medication is a precaution which should never be neglected when danger is present, and therefore a course of the Bitters at this season is particularly desirable, especially for the feeble and sickly. As a remedy for biliousness, dyspepsia, nervousness, and bowel complaints, there is nothing comparable to this wholesome restorative.

Cheerfulness, Beauty and Strength!

You can obtain all three by the use of Roback's Preparations. His Pills will relieve the Stomach and create a cheerful feeling; his Purifier will cleanse the Blood, and thereby beautify the Complexion; and his Bitters will invigorate the Vital powers, and give strength to the Body.

No Humbug—Real No Cheating!—A pint bottle full of Dr. Sage's Catarrh Remedy is prepared from one fifty cent. package, and the proprietor offers $500 reward for a case of Catarrh which he cannot cure. The Genuine has, upon the outside wrapper, Dr. Pierce's private Government Stamp with his portrait, name and address, and the words "U. S. Certificate of Genuineness" engraved upon it.

MESSRS. FIELD & CRAIGHEAD, Eds. of the N. Y. Evangelist, says: "Your Astral Oil gives the best of light, burns odorless, and the family feel in as little danger from explosion, as if using Judd's sperm.—Please send another can."

LYMAN B. LARKIN, M. D., Ballston, Spa., N. Y., says: "I am more than pleased with your Astral Oil; for safety, brilliancy of light and economy, I have seen nothing to equal it, since the days of pure sperm oil, obtained from New Bedford, Mass., some twenty-five years ago."

Prof. J. G. POTTER (formerly of and successor to Dr. James R. Chilton & Co., Analytical Chemists, N. Y.), says: "I have analyzed a sample of Mr. Charles Pratt's "Astral" Oil, for the purpose of testing its purity and desirability as an illuminating material for family use.

* * * * *

I have no hesitation in stating that it is an oil of superior quality, and worthy of public patronage."

Scientific & Popular Medical Works
—ON—
Manhood, Womanhood, and Nervous Diseases,

PUBLISHED BY THE
PEABODY MEDICAL INSTITUTE,
No. 4 Bulfinch Street, Boston,
(Opposite Revere House.)

DR. W. H. BARKER, Assistant Physician.

Medical knowledge for everybody. 250,000 copies sold in two years.

A Book for every Man.
THE SCIENCE OF LIFE, OR SELF-PRESERVATION. A Medical Treatise on the Cause and Cure of EXHAUSTED VITALITY, PREMATURE DECLINE IN MAN, NERVOUS AND PHYSICAL DEBILITY, HYPOCHONDRIA, and all other diseases arising from the ERRORS OF YOUTH, OR THE INDISCRETIONS OR EXCESSES of mature years. This is indeed a book for every man. Price only $1.00. 285 pages, bound in cloth.

A Book for every Woman,
Entitled SEXUAL PHYSIOLOGY OF WOMAN, AND HER DISEASES; or, WOMAN TREATED OF PHYSIOLOGICALLY AND PATHOLOGICALLY, from INFANCY TO OLD AGE, with elegant ILLUSTRATIVE ENGRAVINGS. 351 pages, bound in beautiful French cloth. Price $2.00.

A Book for Everybody.
Flattered by the reception of, and great demand for, the above valuable and timely treatises, and also to meet a great need of the present age, the author has just published a new book, treating exclusively of NERVOUS AND MENTAL DISEASES. 150 pp. cloth. Price $1.00, or SENT FREE on receipt of $3 for the other two books, postage paid.

These are, beyond all comparison, the most extraordinary works on Physiology ever published. There is nothing whatever that the MARRIED OR SINGLE, of EITHER SEX, can either require or wish to know, but what is fully explained, and many matters of the most important and interesting character are introduced to which no allusion even can be found in any other works in our language. All the NEW DISCOVERIES of the author, whose experience is such as probably never before fell to the lot of any man, are given in full. No person should be without these valuable books.

"VALUABLE BOOKS.—We have received the valuable medical works published by the Peabody Medical Institute. These books are of actual merit, and should find a place in every intelligent family. They are not the cheap order of abominable trash, published by irresponsible parties, and purchased to gratify coarse tastes, but are written by a responsible professional gentleman of eminence, as a source of instruction on vital matters, concerning which lamentable ignorance exists. The important subjects presented are treated with delicacy, ability, and care, and, as an appendix, many useful prescriptions for prevailing complaints are added."—*Coos Republican, Lancaster, N. H.*

"The author of these books is one of the most learned and popular physicians of the day, and is entitled to the gratitude of our race for these invaluable productions. It seems to be his aim to induce men and women to avoid the cause of those diseases to which they are subject, and he tells them just how and when to do it."—*Chronicle, Farmington, Maine, Sept. 7, 1869.*

☞ Either book sent by mail on receipt of price.

N. B. The Author of the above-named medical works is the Chief Consulting Physician of the Peabody Medical Institute, and is so constantly employed in consultation with invalids from all part of the country, that he has no time to attend to mere business details. Therefore all letters should be addressed to the PEABODY MEDICAL INSTITUTE, to Dr. W. H. PARKER, the Medical Assistant of the Author, and his Business Agent, who, as well as the Author himself, may be consulted on all diseases requiring skill, secrecy and experience.

TELEGRAMS.

WAR MATTERS.

VERSAILLES, Jan. 8.

The American consul has been permitted to leave Paris, and has arrived here.

The Prussian guns could easily shell the city. There are several houses in Paris on fire. There has not been much firing today. The French redoubt at Notre Dame de Clamart is occupied by the Prussians, and its fire turned against the French. There are no appearances of sorties. The Prussian losses are still insignificant.

VERSAILLES, Jan. 7.

The bombardment of the forts on the southern side of Paris is steadily continued and the fire of the French has slackened. It is supposed that several of the guns in the forts are dismounted.

The weather is favorable for siege operations.

A correspondent at Margency says that Forts Rosny and Nogent have suffered severely, and that it is believed there are no French infantry outside the fortifications on the east and northeast. Paris is active and offensive operations are expected immediately.

Consul Read Interviews Bismarck.

VERSAILLES, Jan. 9.

The United States Consul at Paris, J. Meredith Read, had two interviews yesterday with Bismarck, and subsequently left for London. Minister Washburne and Mr. Hoffman are reported well by the Consul.—One hundred and fifty Americans still remain in Paris. The American ambulance corps is doing most efficient service. The bombardment is terribly noisy but indecisive.

The Alabama Claims.

LONDON, Jan.

The Standard, to-day, intimates that if new negotiations upon the Alabama claims should fail to be entered upon, the fact will prove that the delay is due to the United States and not to England.

The Bombardment on the South of Paris.

VERSAILLES, Jan. 7.

The bombardment of the forts on the southern side of Paris is steadily continued, and the fire of the French has slackened. It is supposed that several guns in the forts are dismounted.

Several Houses in Paris on Fire.

VERSAILLES, Jan. 8.

The American consul has been permitted to leave Paris, and has arrived here.

The Prussian guns could easily shell the city. There are several houses in Paris on fire.

Frederick Charles Victorious Advance.

BERLIN, Jan. 9.

The King telegraphs to the Queen:

VERSAILLES, Jan. 8.

Frederick Charles continues his victorious advance on LeMans. Everything has been quiet in the North since the 3d. The bombardment here is progressing furiously.

The Fighting on the Loire.

LONDON, Jan 9.

The Times special correspondent with the army of Prince Frederick Charles describes the fighting along the Loire in the forest of Vendome and at Montoine, on the 6th. inst., and says the French retreated westward.—The Prussians are following them and meet with but little resistance.

COLD AT THE NORTH.

LOWELL, Jan. 9.

The thermometer this morning stood as follows:
Bristol, N. H., 12 deg. below zero.
Concord, N. H., 10 deg. below zero.
Manchester, N. H., 10 deg. below zero.
Lowell, Mass., 10 deg. below zero.

FROM NEW YORK.

NEW YORK, Jan. 9th.

It was very cold last night and the Station houses were crowded with shivering poor.

Great preparations are being made here to receive the released Fenians from England.

Henry Ward Beecher preached yesterday from St. John, fifteenth chapter, fifth verse. He took liberal grounds, declaring that God was better than man; that he did not create the world to damn it, and that the New Testament was better than church doctrines.

Trenton advices say the New Jersey Senatorship lies between Frelinghuysen and Walsh, with the chances in favor of the former. The Legislature meets to-morrow. A very lively contest is going on.

The Tribune says: "Reading the address of Cabral, who has three or four hundred ragged followers, one would imagine that the San Domingo Insurrection is a momentous affair. The address has interest for us only as indicating what a set of citizens we should get by annexing the Island.

Bordeaux advices say large numbers of French recruits from the southeast of France are hastening to the camp of Instruction at St. Midard. The mobilized men within the region bounded by Loire, Garanne, Durance and Loane, will give a heavy effective force.

SUCCESSFUL BATTLE BY COLONEL FISK.

NEW YORK, Jan. 9.

Late Saturday night after the forgery of E. Stokes, Secretary of the Brooklyn Refinery Company, was discovered, Col. James Fisk, Jr., who had lent Stokes $30,000 to engage in business, obtained, legal authorization, got together one hundred men, and at one o'clock Sunday morning crossed the river, and with scaling ladders attached and carried the refinery building by storm, driving out eighteen men who guarded it, and establishing themselves there firmly. During the day two separate attempts were made by the men of Superintendent Stokes to recapture the place, but they ignominiously failed.

NEW YORK.

Jan. 9.

The meeting to celebrate the completion of the Italian Unity, Thursday evening, will be an elegant and imposing affair. Vice President Colfax has written a letter heartily indorsing the objects of the meeting. Gen. Dix will preside. Beecher, Judge E. Mott and others are among the speakers.

The supply of water failed at Jersey City and other Jersey towns bordering on the Bay and Hudson River, supplied with the Passaic water through the reservoirs at Belleville. Many of the streets are now supplied with water from this city. Those houses heated by steam and furnished with ranges complain bitterly.

Horace Greeley on San Domingo.

NEW YORK, Jan. 9.

In answer to several correspondents, Horace Greeley publishes the following card this morning:

"MY DEAR SIR:—All I ever say or heard of Gen. Grant assures me that he has too much sense to think of sending me to San Domingo. Thus far he has honored and gratified me by never suggesting to me that I could be more useful to the country, or to his Administration, in any other position than in that which I have filled for almost thirty years. At all events I assure you that I never thought of going to San Domingo, and am not I trust wanted to go to San Domingo, and at all events I wont go to San Domingo (Signed) Yours,
HORACE GREELEY."

Great Conflagration at Greenpoint, L. I.

NEW YORK, Jan. 9.

A terrible fire is now raging at Greenport L. I. The tar cock of Still No. 1., in the Oleophine Oil Works, exploded about eight o'clock this morning, and set fire to the still. In a short time Still No. 2 caught fire, and the flames growing strong and extensive spread alarmingly under the influence of the strong wind, blowing and the place is threatened with devastation.

A PAPER MILL BURNT.

BOSTON, Jan. 9.

One of the paper mills of Thomas Rice, Jr. at Newton Falls was burned yesterday.—Loss $80,000; Insurance $15,000.

FROM WASHINGTON.

WASHINGTON, Jan. 9.

SAN DOMINGO.

The San Domingo Senate resolutions got through the House committee on foreign affairs this morning, with unexpected case. The statement that the President had abandoned all expectation of final action this winter, and only asks a commission, had something to do with it.

THE RESULT IN GEORGIA.

Trustworthy advices from Georgia say that the Republicans have certainly carried three of the Congressional districts, and will contest a fourth.

THE PACIFIC RAILROAD TROUBLES.

Congress will probably take early action in the matter of the Pacific Railroads, which will prevent the Central falling into the hands of the first mortgages.

COME AND SEE

OUR CHRISTMAS CAROLS!

FOR ADULTS AND CHILDREN.

W. WOOD,

WIT AND HUMOR.

A western Cornelia thus maternally addresses her eldest jewel. "My daughter, you are now fifteen years old, engaged to be married, and without a freckle on your face. I have done my duty."

"John," said a poverty-stricken man to his son, "I've made my will to day."

"Ah!" replied John, "You were liberal to me, no doubt."

"Yes, John; I came down handsome.—I've willed you the whole State of Virginia —to make a living in, with the privilege of going elsewhere if you can do better."

A nice young man in one of our large boarding houses, received on Christmas, four pairs of slippers, three neck-ties, six pen wipers, and two smoking caps from young lady acquaintances. His New Year's gifts to settle this account cost about eighty dollars. You can't start a ripple on his face by telling *him* it's more blessed to give than to receive.

The University Medicines

are not patent medicines, but the Favorite Prescriptions of the New York Medical University, an Incorporated Institution of the State, and are prepared in consonance with the views of a number of distinguished living American practitioners, who believe that the time is come when educated physicians should arise and make a decisive effort to overthrow the health-destroying system of quackery prevailing in every town and city, and substitute scientific, responsible remedies—made in accordance with the principles of Medical Chemistry—in place of the worthless or dangerous patent Medicines flooding the country.

A knowledge of Medicine and Chemistry, as profound as that of any physician that have ever lived, enables us to warrant these Compounds to be the most perfect Curatives for disease ever placed before the people. What may seem almost incredible is the astonishing rapidity with which they cure diseases hitherto considered incurable.

They are combined, with great care, from fine Chemicals, with a true knowledge of their therapeutic properties and physiological effects. Nothing cheap, impure, or poisonous, has been tolerated in their composition.

They are the finest prescriptions of a body of eminent American professors, and have been thoroughly tested in one of the most extensive and successful practices of the day.

The University Medicines

are to-day sweeping the country from Maine to Mexico, becoming the leading Health Restoratives, and rapidly superseding the old potions, nostrums, and nauseous drugs, and their sale is becoming enormous. They are now regularly prescribed by over one thousand physicians.

No Forged Certificates Required.

No medicines ever originated have received so many genuine certificates of cures in a briefer space of time. We are daily receiving letters from every part of the country, from patients and physicians, recording the most astounding cures performed by these remedies. Many of these cases had been considered beyond the power of cure. We wish that we could publish these letters for the encouragement of the afflicted, but a book of 1,000 pages would not contain them.

From our Letter-Files.

In order to convince the skeptical, we this day publish the following opinions selected from many thousands voluntarily given by intelligent, respectable people who have used the UNIVERSITY MEDICINES themselves, or in their families, as a moral guarantee that these magnificent remedies are totally and to the patient extreme of the lungs.

SS.—Personally appeared before me, J. W. Scott, President; L. Hewett, Vice-President; John C. Howard, Treasurer; and George Powell, Secretary of the New York Medical University, and made oath upon the Holy Evangel of Almighty God, that the following are genuine, unaltered extracts, taken from original letters being duly received at the Institution. WM. H. RIDLEY, Notary Public,
Corner Ninth street and Fifth avenue, New York.

SURGEON GENERAL'S OFFICE,
WASHINGTON, March 10, 1870.

Professor—Please forward my record order for UNIVERSITY MEDICINES. I am pleased to say that I have found them of great service in the treatment of patients under my charge.

———, A. A. Surgeon, U. S. A.

300 CONGRESS ST., Portland, Me., May 1, 1870.

Professor Scott and Associates—The UNIVERSITY MEDICINES are rapidly revolutionizing the practice of medicine in Maine. * * * I have over five hundred patients. * * * Here, in Portland, I have taken away two-thirds of the doctors' patients. * * * I have nearly two hundred agents, and am calculating ten agencies a day. * * * I shall sell $100,000 worth of UNIVERSITY MEDICINES in Maine this year. * * * I am worn out with hard work. * * * I enclose you a number of certificates of great cures. * * * I will pay $1,000 if one of them can be found that is not genuine. * * *

P. STAPLES, State of Maine Agent.

MOBILE, Ala., May 3, 1870.

Gentlemen—Send as a full line of your goods by steamer as soon as possible, as we intend to make the sale of the UNIVERSITY MEDICINES a specialty, having more confidence in their curative properties than any medicine we have ever sold. In fact, we have the most unbounded belief in them, and always recommend them to our customers in preference to all others we have ever known. We have recently made some astonishing cures in Mobile of Scrofula, Catarrh, Kidney Disease, &c., with your Cancer-Plant, Lithia, Specific, etc.

L. D. & B. O. GOULD.
Druggists, thirty-five years' standing.

From a distinguished member of Congress,
WASHINGTON, May 4, 1870.

My Dear Doctor—Your medicines seem to act favorably on the nerves, as well as the blood. * * * I am much improved. * * * My lungs are wonders of medical science. * * * I have every faith in your medicine and skill. * * * I believe that you are enlightened of God to do a great work, and that you will do it. * * * You have done a great deal for me. * * * You understand your business. * * * You are the second physician whom I have confidence in. * * * I would not trust the blockhead down here to give physic to my horse. * * *

BLAIRSVILLE, PA., April 18, 1870.

To Professor Scott—Enclosed please find sketch of the case of William Gureen, of this place, aged 15—Disease, indurated scrofulous ulcer of the right leg, painful and gangrenous, of six years' standing. It had exhausted all the skill of numerous physicians during that time.

This terrible picture was his condition on the 1st of February, 1870.

By the use of the Cancer Plant Extract, Healing Blood-and-Bone Ointment, and May-Apple Pills he is now entirely cured.

This case has attracted remark and amazement.—He being a poor man, and one turned out to die, the medicines were furnished at cost—$15.

Besides, your Five Minute Pain Curer and Neuralgo-Rheumatic Elixir have straightened his neck, drawn to an angle of 45 degrees.

I took him in hand, while all the doctors laughed at me, and considered it a good joke to attempt to cure this poor man; but, thank God, I have cured all these maladies, restored his strength, and made him a well person with the UNIVERSITY MEDICINES.

I think, Doctor, that God has inspired you to bring forth remedies for the cure of His afflicted children that nothing in the shape of medicines has yet approached.

SAMUEL E. GREEN.

1,565 THIRD AVENUE, New York, June 23, 1870.

Professor Scott and Associates—It is truly gratifying to know that science has at length triumphed over quackery. I have been using the UNIVERSITY MEDICINES in my regular practice for some time with the most remarkable success. Diseases of every character rapidly succumb to their healthful influences. You are eventually destined to overthrow the old practice of medicine.

CHAS. K. DRAPER, M. D.

Dr. Scott—For 7 years I have suffered with Cancer of the breast. What my sufferings were, tongue can never tell. In a dying condition I came to you, and commenced using your Cancer Plant and Ointment. Almost instantly, my sufferings were relieved, and through the providence of God, I am a well woman. Firmly and gratefully, and from a sincere interest in the welfare of those similarly afflicted, I shall be pleased to answer all questions.

New York, Oct. 12, 1869. Miss E. CAREY.

Three bottles of your Hydrated Oxymel cured me of Consumption, although our Bridgeport physicians said that I could not be cured.

GEORGE D. REYNOLDS.
Metallic Cartridge Company, Bridgeport, Conn.
March 1, 1870.

Professor Scott—Through the recommendation of C. W. Huntington, Esq., of Hartford, who has successfully used your Lithia as a remedy for disease of the Kidneys and Liver, I sent for three bottles.

Unionville, Conn., Jan. 1, 1870. L. M. MASON.

Dr. Scott—Three months ago, I was attacked with Heart Disease. Our family physician pronounced it Neuralgia of the heart, and prescribed medicine without benefit. I also ascertained that I was afflicted with that awful disease, Spermatorrhœa. I forthwith obtained your Ethereal Phosphorus, and after taking four bottles was completely restored. Afterward I had pain in my back, which your Lithia cured. My oldest boy had the skin disease—Herpes—and doctored five years without relief. I gave him two bottles of your Cancer Plant Extract, and, thank God, he is well. WASHINGTON TYSON.

Pottstown, Pa., Jan. 5, 1870.

Derby, Conn., Jan. 21, 1870.

Dr. Scott—I came to the conclusion that you were trying to cure people, which is more than most doctors do nowadays. I got a bottle of Lithia for my wife's kidney disease, which none could cure, and I found it helped her immediately. D. CAMP.

Towanda, Pa., April 17, 1870.

Dr. Scott—I have used your Extract of Cancer Plant for the blood, and pronounce it the chief of alteratives. A. N. NELSON.

165 North Main St., Providence, R. I.

Professors—Some of my friends and myself have tried the UNIVERSITY MEDICINES, and found them satisfactory beyond our expectations.

From the well-known eminent Dr. [illegible] Jones of Baltimore, Md., Oct. 11, 1869.

I have a lady under my care with cancer in the left breast. I recommended her to use your remedies, and with the most marked benefit, and decided improvement in every respect.

J. HUCKLER JONES, M. D.

Ashland, Pa., 1870.

Dear Sir—I have prescribed your Hydrated Oxymel for Bronchitis, and the Yellow Jessamine for Heart Disease, with great benefit, and am convinced of their efficacy. DR. JOHN B. KENNEDY.

Newport, R. I., Jan. 14, 1870.

"Io Triumphe" should be the motto of your medicines. They have cured me after all our Newport physicians have failed. J. W. WILSON.

76 Temple St., Hartford, Jan. 15, 1870.

Dr. Scott & Co.—Four bottles of your Ethereal Phosphorus have acted very strengthening to my system. R. KISZEL.

VERNON, Conn., May 1, 1870.

Doctors—I obtained eight bottles of your Ethereal Phosphorus for Spermatorrhœa. I am using it according to instructions, and I feel a marked improvement. The lustre of my eyes has returned, and my whole countenance is brighter. It is slowly but surely curing me. Thanks to your wonderful medicine, it is helping me in many ways, etc., etc.

E. I. BISLEY.

FAIRFIELD, Iowa, March 5, 1870.

Gentlemen—Your Katalpa Extract works magically. There is nothing equal. I have been afflicted with sick headache and liver complaint since last spring. Took three doses of your Headache Pills and can say they have eased my head out as clear as a bell. I gave the balance away, saying "Gentlemen, be convinced—I am." Dr. McKENNA.

YARMOUTH, Me., May 9, 1870.

Doctor—My mother is taking your Cancer Plant for Dropsy. Two bottles have done her more good than three years' doctoring from the best physicians of this place. * * * I hope the Lord will continue to prosper you in the good work.

Mrs. SARAH A. WITTON.

35 MARKET ST., Pittsburgh, Pa., May 24, 1870.

Professor Scott—Although I opposed the UNIVERSITY MEDICINES but a short time, I am confident that where they are given a fair trial they will work wonders in cures of disease, and give general satisfaction. All the remedies are proving successful, and my practice is rapidly increasing.

A. M. YOUNG, M. D.

OFFICE BLACKSTONE HOSE CO., [illegible]
Palmer, Mass., May 6, 1870.

Professors—The University Medicines are effecting some remarkable cures here. Send me one dozen of Cancer Plant and Chemical Ointment.

A. B. CHAPMAN, Secretary.

PHILADELPHIA, June 23, 1870.

Professors—We have just been handed a bottle containing a piece of tapeworm, 13 feet 3 inches in length, which was brought away by the use of one bottle of Cancer Plant and the May-Apple Pills.

We also have just cured a case of piles of many years' standing, by using Pile Extract and Katalpa Extract.

JOS. C. HARROLD.

I find the UNIVERSITY MEDICINES work like a charm in my practice.

MANHOOD; HOW LOST, HOW RESTORED.

JUST PUBLISHED, a new edition of **Dr. Culverwell's Celebrated Essay** on the RADICAL CURE (without medicine) of SPERMATORRHŒA or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY, and FITS, induced by self-indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.
